

Fast-paced, informative and inspiring workshops that will give you:

All you need to know about implementing a cellphone-free driving policy

Details about the Workshops

The Coalition for Cellphone-Free Driving is pleased to offer hands-on workshops designed to provide individuals with the necessary tools and resources to develop and implement a cellphone-free driving policy within their organization.

The interactive workshops focus on:

- the dangers of wireless device use while driving
- the process of developing and initiating a cellphone-free driving policy
- Strategies to address the barriers and challenges of implementing a cellphone-free driving policy within your organization.

Who Should Attend

Employers and company owners, risk managers, occupational health and safety personnel, interested employees and insurers; oil and gas, transportation and other industry representatives; law enforcement officers, lawyers, media representative and educators—and others with responsibilities relating to road safety.

Workshop Objectives

1. To assist participants in developing and implementing a cellphone-free driving policy. Each participant will receive a *Tool Kit for Creating a Cellphone-Free Driving Policy*.
2. To overcome the barriers faced when implementing a cellphone-free driving policy. You will hear from Coalition members on the challenges of having a cellphone-free driving policy in their organization and valuable lessons they have learned.
3. To provide practical strategies for avoiding cellphone-use while driving. Information will include best practices from a variety of industries.
4. To guide employers in creating transportation safety culture within their organization. Emphasis will be placed on driver distraction and wireless device use.
5. To provide support, resources and networking opportunities.
6. To form new partnerships with others concerned to increase awareness of the dangers of using a cellphone while driving.
